SATS - Novartis Respiratory Training Research Fellowship

RESEARCH PROPOSAL: (3 PAGES MAXIMUM)

Applicants are required to provide short but sufficiently detailed outline of the proposed research project and a budget to enable the Selection Committee to assess the **relevance and feasibility** of the project given the limited budget and time available. Collateral funding is allowed but must be disclosed to evaluate financial feasibility and specific needs of the projects.

Proposal should include:

1. Research Question – background and relevance
2. Hypothesis and aims
3. Design & Methods
4. **Feasibility (key aspect for review)**
5. Budget (R15,000)
